Commercial and Money Matters.

SATURDAY P. M. The sales at the Brokers' Board to-day were only to moderate extent, and without material change in prices.-Prices generally were a little better. Ohio 6s improved Kentucky 1; Illinois 1; Farmers' Loan 2; Canton 1; Harlem 1. Long Island declined 1, occasioned by a report that the Company would call in an instalment on the 1st August. The report is entirely without foundation. A large amount of L Island stock which had been hypothecated was thrown on the market to-day, which also had a depressing effect.

Not much doing in the Bill market. Sterling 83 a 9; Domestic Exchange we quote as follows:

Markets-Carefully Corrected for The Tribune. SATURDAY, July 15. ASHES .- There is not a great deal doing in Pots to day,

in consequence of the unsettled state of the market. About 100 bbls sold at 4-50, but holders generally demand 4-564. COTTON .- There was rather more activity to-day, and

the sales reach 10 to 1200 bales at previous rates. The sales for the week ending Friday evening amounted to about 3750 bales, of which say 2200 were Upland and Florida at 51 a 71

day, and prices rather lower. The demand in a great measure has been supplied, and holders of lots liable to become sour are pushing them off at prices continually in favor of the buyer. We hear of sales Genesee at 2 12 \(\frac{1}{2}\) a 5 18\(\frac{3}{2}\), and some fugitive lots, of brands not considered quite standard, at \$5. Michigan and Ohio sell at \$5 a 5 06; for good common brands and 4 87½ for occasional lots in indifferent order.

Some purchases, say 1500 bbls, supposed of Western, have been made for France. N Orleans is nominally 4 75, but we hear of no sales. Letters from the South to-day speak Wheat districts, and some parcels of Southern Flour here have been limited at rates higher than they were held at yesbbls, 14 25 for hids, without sales of importance. A sale of 500 bbls Jersey was made at 2 87½, but that rate was refused for another parcel. Shorts 6 a 6½; Ship Stuffs 10 a

HAY.—The supply is not very large, and prices are steady. We notice sales about 400 bales at 40 a 50 cts, the latter for prime retailing quality.

WHISKY.—Barrels do not arrive very freely, but prices are not firm. Small sales Western at 23c. Drudge 23 cts,

SKINS .- We notice farther sales 100 bales Curacoa and Rio Hache Goat, the balance of a parcel, on private terms, 6000 Patna were bought in Boston for this market at about

present month, and it continues generally dull. English common Bars have been sold at an improvement on some forced sales made some time lines. We should now quote good assortments 48 50 a \$50. A lot of Norwegian, the quality of which is similar, and esteemed better than Old Salu parcels at 97 50, 6 mos. Nothing doing in Swedes, and steady, but rather quiet. 2000 pigs sold at 3 35, 6 months. We notice a farther sale of 500 boxes id X Tin Plates, to arrive, at \$8, 6 mos. Russia are scarce, the importations, owing to the abundant supply of American and the consequent diminished consumption of Foreign, having fallen off very materially within a few years.

NAVAL STORES.—Sales of 2500 bbls North County

Turpentine have been made for export at 2 25, making 6000 for the week at the reduction, which may now be considered established. Very little new Wilmington has been received. Jayne's Expectorant.—Look at our bills of mortality, and you will find that Consumption is more destructive to human life in this country than any other disease. We all know that cough, like the warning of the rattle-snake, always precedes, as well as accompanies, this terrible scourse. It is a fair precurption that every cough may terminate in pulmonary disease if not checked early, and where the risk is so great, the danger so imminent, it is astonishing that individuals should be found mad enough to neglect the means of cure. Dr. Jayne & Expectorant can be readily procured in any part of the United States, and the experience and voluntary testimony of thousands, the results of chemical analysis, and the decisions of professional men who stand in the first rank of medical science, all point it out at the best preparation ever invented by man, for the cure of all diseases of the lungs, chest, wind-pipe, and other organs connected with the process of respiration. It is used in regular practice by the most gelebrated physicians of the day.
